FC Firewall Service

No Hardware To Purchase

No Security Deposit

No Setup Fee

Low Monthly Rate

Application Layer Content Inspection

Recognizes and blocks threats that stateful packet firewalls cannot detect.

Gateway Spam Filtering

Detects and blocks spam before it enters your network

Gateway Antivirus Filtering

Inspects all Internet traffic and blocks malware and viruses before they enter your network

Web Site URL Filtering

User selectable filtering of web site categories such as adult sites, shopping sites, etc.

Intrusion Prevention Filtering

Scans traffic on all major protocols, using continually updated signatures to detect and block all types of threats

Application Blocking

Controls what applications have access to the Internet. Now you can prevent users from using Skype, AOL Instant Messenger or similar applications

VPN Connections

Connect employees, clients or remote offices to your location with IPSec or SSL VPN connections

Traffic Logging

All firewall activity is logged to our log server and retained for a minimum of six months

Security Signatures Updated Automatically

Security signatures updates allow the firewall to recognize all of the latest threats
All signatures are updated automatically

Reputation Based Access Control

Helps to reduce performance issues associated with scanning web content, blocks access to malicious web sites
